Member of ARRL: YES NO

Operations

Modes: SSB CW FM RTTY AMTOR Packet Satellite Microwave

Bands: HF VHF UHF ABOVE

Activities: DX Contest QRP Build RF Antennas Software

Other: _____

We want to be your radio club! Let us know what you would like to do and the rest of the club can find out about it and do it with you! Dues are \$24 per year for students, \$33 for non-students. Our year follows the school year, starting with Fall Semester. To obtain operating privileges in the W4AQL shack we require that you have on file with the Secretary a copy of your amateur license, and that you be checked out on the use of the clubs equipment with the Shack Steward. If you would like a key to the shack that can be obtained after one semester by giving our faculty advisor a \$50 key deposit, refunded when you return your key. This is just a summary of the club. Please don't hesitate to stop by and find out more about us.

The Georgia Tech Amateur Radio Club is happy to answer any questions you may have. Please feel free to stop by our shack, room E496 of the Van Leer EE Building, or in room W218 of the Electrical Engineering Building at 7:00 PM on the second Monday of the month, Visit our web site at <http://cyberbuzz.gatech.edu/w4aql> or e-mail the Executive Committee at w4aql-ec@lists.gatech.edu.

If you're not a licensed ham, don't let that stop you from coming by our meetings. We are always happy to help you on your way to getting a license. We provide FCC testing exam sessions and occasionally teach courses on getting your amateur license. We're always happy to provide you with information and advice, as you need it, both with radio projects you are working on as well as with theory you may be having trouble understanding. Whatever it is, the GTARC has many resources to help you. Come on by and see what we're doing!
